LETTER OF RECOMMENDATION
for Hrvoje Belani, M.Sc.E.E.

Hrvoje Belani gained his university education on **Faculty of Electrical Engineering and Computing at University of Zagreb, Croatia**. He graduated at the Department of Telecommunications on September 30th 2003, in the field of Telecommunications and Informatics. He gained M.Sc. in the same field on October 26th 2007 with the thesis "Process Model for Implementation of Security Requirements for Value Added Services"..

In period from September 2003 till December 2009, he has been working as the research and teaching associate at the **Department of Telecommunications**, on research and development projects in association with Research and development (R&D) unit in KATE-KOM Company, and with Croatian Institute of Technology. He is currently Ph.D. student on Faculty of Electrical Engineering and Computing, and a member of IEEE and ACM organizations.

Mr. Belani had been involved in several educational activities at the Department, to mention a few:

- Assistant in elective undergraduate course "Telecommunication Software Design"
- Assistant in elective undergraduate course "Computer Telephony Integration"
- Assistant in seminar on Software Engineering in Telecommunications
- Assistant in elective undergraduate course "Project Management"

His research and development interests include:

- ICT-based augmentative and alternative communication
- Formal methods for requirements engineering
- Secure and trustworthy mobile services
- Project and process management

On a more personal note, Mr. Belani has a pleasant personality and a vivid interest in his environment, and shows his capability to function perfectly within a rather heterogeneous team, as well as within a large number of students he has been teaching. He had been successfully teaching some classes and laboratory exercises in above mentioned courses. He is very fluent in English, and successfully participates in international activities, like conference and workshop presentations, and summer schools.

Therefore, his attendance and student volunteering at

34th International Conference on Software Engineering, Zurich, Switzerland, June 2-9, 2012.

Is greatly recommended.

Kind regards,

Supervisor:

Assist.Prof. Željka Car, Ph.D.

Zagreb, February 22nd, 2012
