Dear Committee:

As Mr. Chunrong Fang's supervisor for three years, I am writing with pleasure to recommend him as a student volunteer for the ICSE 2012.

I have known Mr. Fang since his enrollment in my graduate lab in 2009. Since then, Mr. Fang has taken part in a lot of research work on software testing and analysis along with other faculty. His good work has fully manifested his ability to analyze and solve problems, his incorporation of fundamental knowledge with good skills, and his cooperative and enthusiastic manner with others. In his graduate period, some research results have been accepted by National Software Application Conference (NASAC) 2011 and published in Chinese Journal of Computers. Now he has submitted two papers to workshops collocated with ICSE 2012.

In addition, his proficiency in English language in listening, speaking as well as reading and writing will certainly enable him to be competent at the task as a student volunteer for the ICSE 2012.

Therefore, I recommend Mr. Fang most enthusiastically. Any assistance that you could render to his application for admission would be highly appreciated.

Sincerely yours

Zhenyu Chen
