Letter of Support for Sebastian Müller as ICSE 2012 Student Volunteer

Ladies and Gentlemen:

Sebastian Müller is a first year PhD student in my research group at the University of Zurich. His work focuses on Augmenting Software Evolution Analysis with Natural User Interfaces to support developers in exploring and analyzing large software.

Sebastian is a promising young student, very well organized, and absolutely dependable. He has already been involved in organizing large courses (such as Introduction into Programming with more than 200 students) at UZH. His performance has always been outstanding and reliable.

He is an open personality who is interested in getting to know peers in the SE field and in providing service to the SE community. As for his proficiency in English I can say that his ability to speak and write in English is very good.

I can warmly recommend him for the job as a student volunteer for ICSE 2012.

Best regards,

A handwritten signature in blue ink, appearing to read 'H. Gall'.

Harald Gall
Professor
