The Twelfth IEEE International Workshop on Performance and Management of Wireless and Mobile Networks (P2MNet 2016)

It is our great pleasure to welcome you to the 12th IEEE International Workshop on Performance and Management of Wireless and Mobile Networks, held in conjunction with the 41st IEEE Conference on Local Computer Networks that takes place from November 7 to 10, 2016 in Dubai, UAE. The aim of the 12th IEEE annual P2MNet International Workshop is to give participants a platform to exchange experiences, broaden their knowledge, and meet new friends.

This year, we have received quite a few high quality submissions of which we could only include a subset. Each paper has been peer-reviewed by at least three reviewers. We are very thankful to the Technical Program Committee of IEEE LCN P2MNet and the reviewers for their careful evaluation of submissions.

This year, we are pleased to have Professor Hossam Hassanein as a keynote speaker. He is the founder and the director of the Telecommunications Research Lab at Queen's University School of Computing, Kingston, Canada.

We would like to thank the organizing committee of IEEE LCN 2016 for this opportunity to host P2MNet. We wish to thank our main sponsor IEEE Computer Society.

Finally, we would like to thank you for your participation in P2MNet, and we hope that you enjoy the Workshop.

Azzedine Boukerche
